Visual Impact!

3M™ Controltac™ Plus Graphic Film with Comply™ Adhesive IJ180C-10

Uses

- Medium to long-term removable film for fleet and vehicle graphics as well as interior and exterior signs, including applications to moderate compound curved, and corrugated and riveted surfaces. Designed for piezo ink jet printing.

Key Features

- 3M's pressure-activated adhesive, available only on Controltac films
- Comply adhesive air release technology for fast and easy, high-quality installations
- High initial tack allows vehicle to be used immediately
- Pigmented adhesive provides excellent hiding power
- Fast, clean removal with little or no adhesive residue
- Cast film for exceptional appearance

Benefits

- Pressure-activated adhesive allows film to be repositioned until firm pressure is applied
- Bubble- and wrinkle-free graphic installation
- No need to cure minimizes vehicle off road time and allows quicker sign construction
- Good-looking graphics with no 'show through'
- Excellent finish, no edge lifting, shrinking, or cracking and conformable even on many difficult surfaces
- Peace of mind using products that are tested and backed by 3M.
 - 3M™ MCS™ Warranty—*still the strongest warranty in the industry*—covers most finished graphics when you use all 3M media, ink and recommended printers.
 - Performance Guarantee—adding confidence to your choice when you use selected 3M media imaged with an expanding range of 3M-qualified OEM printers and inks.
